

# Muhammad Saalim

## Full Stack Web Developer

I'm a passionate Full Stack Web Developer with a strong focus on creating clean, functional, and responsive web applications. I enjoy turning ideas into interactive experiences using modern technologies like HTML, CSS, JavaScript, PHP, and Laravel. I'm always eager to learn, improve, and build solutions that make an impact.

## PERSONAL PROJECTS

### Naqsh Wardrobe

- A modern e-commerce clothing website concept designed for men's and women's fashion. This is a **front-end** project built using HTML, CSS, JavaScript, and Bootstrap. It showcases a stylish layout with responsive design, product cards, and a smooth user experience.
- [https://saalim-siddique.github.io/Naqsh\\_Wardrobe/](https://saalim-siddique.github.io/Naqsh_Wardrobe/)

### Madams Boutique

- A **front-end** e-commerce website concept designed for a ladies' clothing brand. This project was built using HTML, CSS, and JavaScript, featuring a modern responsive design. Along with women's clothing, the site also showcases women's accessories, providing an elegant and user-friendly shopping experience.
